

About us

Internet & Mobile Solutions for People is an IT company founded in 2007.

IMS4P has offered IT services for both companies and individual clients. IMS4P's services include:

- **mobile solutions,**
- **IT consulting services,**
- Internet and intranet websites,
- computer games,
- e-commerce.

Our job is our passion and that is why we approach challenges enthusiastically. We want to create impossible things with the use of stable, tested and trusted technologies. We do our best to provide the quality that satisfies even the most demanding Clients.

Strategies and competences

Developing competences, broadening knowledge and gaining even more experience are our main aims. IMS4P offers high-quality products and services. By creating software based on Clients' demands, our experience and providing technical support as far as our projects are concerned, we would like to contribute to our Clients' success.

Thanks to technological investments and our creative engagement we find ourselves in a wide range of services: programming, technical support and IT consulting.

Why IMS4P?

IMS4P is the company based on knowledge and modern technologies. Our development is an inherent part of our work.

Our advantages are:

- flexibility of working hours, adjustment to Client's requirements,
- responsibility for provided products,
- quick response to Customer's requirements,
- long-term support,
- involvement in the company's development and care of the quality of our services.

We are strongly convinced that IMS4P suits your needs and demands.
